BattleVisor™

With **BONUS**
SunSpot Blocker™

INSTALLATION

While parked, pull the vehicle visor down (either the driver's or passenger's side). Use care to slowly ease the open end of the visor clips of the BattleVisor™ onto the bottom of the vehicle visor. Make sure that both clips grip the vehicle visor securely but do not force as clips may break if expanded too far. Never attempt to install or remove the BattleVisor™ while driving - pull over and stop the vehicle to install or remove it.

WINDSHIELD USE

Once firmly in position, you are now ready to use your BattleVisor™. While maintaining vision through the windshield, carefully unfold the BattleVisor™ from its stored position and adjust to suit your needs. If the sun or glare spot is extremely bright, slide the Sun Spot Blocker™ to a position where it can help to block the glare. It should not be used if it interferes with normal vision of the road. Always maintain direct vision through the windshield while driving. If the Sun Spot Blocker™ is not needed, slide it all the way to the right or left to maintain optimum vision of the road ahead through the windshield.

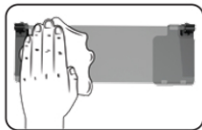

SIDE WINDOW USE

The BattleVisor™ can also help to block glare on your side window. With your BattleVisor™ folded up and out of the way above the visor, carefully unhinge your vehicle visor from its locked position, slowly swivel the vehicle visor to the left (or passenger side) and carefully fold the vehicle visor back down. Pull the BattleVisor™ down from its stored position and adjust it to suit your needs. You may also use the Sun Spot Blocker™ to block the glare where it is strongest.

STORING

When not in use, the 2-way clips allow the BattleVisor™ to easily fold up and out of the way on top of the vehicle visor. Do not use the BattleVisor™ if it interferes with the proper stored position of your vehicle visor or if your vehicle visor can unexpectedly drop down.

CLEANING

While the vehicle is parked, remove the BattleVisor™ and gently clean it with soap and water or wipe with a microfiber towel.

⚠ WARNING:

Secure BattleVisor™ properly & keep clean to avoid serious injury or death.
